

Want to go solar on your farm, home, or small business, but not sure where to start?

Good news! The new Northeast Minnesota Co-op is open for new members. This opportunity is brought to you by Iron Range Partnership for Sustainability, Minnesota Interfaith Power and Light, Cook County Local Energy Project, and Solar United Neighbors (SUN). It's free to join with no obligation, making going solar easier and more affordable.

What is a solar co-op?

A solar co-op brings neighbors together to leverage group purchasing power for better solar pricing. Members benefit from SUN's expertise and learn from others in the community who have already made the transition to solar.

Why a solar co-op?

Get a great price and service. Tap into and understand financial incentives. Get support throughout the process. Join for free with no obligation to go solar.

Now is a great time to go solar:

- Federal Solar Tax Credits now cover 30% of solar installation costs.
- Minnesota's "net metering" ensures your utility pays you for excess power.
- Panels generate income right away and pay for themselves over time.

Attend a Solar 101 in your community or online to learn more!

March 27 – Virtual Solar 101

April 8 – At First United Methodist Church in Duluth

May 13 – At Cook County Community Ctr. in Grand Marais

June 17 – Virtual Solar 101
